

I uploaded Community medicine lectures on download center based on the last updated blueprint

(You can find the blueprint in the last page of this document)

Here are some notes to clarify everything

Good luck,

Sarah AlMutawa

download_center > 3rd > Females > 1st Semester > Community medicine

Seminars

Tutorials

Lectures

Are all included **EXCEPT**

- 19- Introduction to NCDs.pdf
- 19- Introduction to NCDs.ppt
- Introduction_COMM311.pdf
- Introduction_COMM311.ppt

Are all included, **but note that**

- 1-(Males) Health Indicators.pdf
- 1-(Males) Health Indicators.ppt
- 2-Outbreak investigation.pdf
- 3- (Extra) Notification.pdf
- 3- (Extra) Notification.pptx
- 3- Notification & Surveillance.pdf
- 3-Notification & Surveillance.pptx
- 4- screening.pdf
- 4- screening.pptx
- 5-Demography.pdf
- 5-Demography.pptx

I uploaded this tutorial from males' folder, because **dr.Randa** didn't give us a separated presentation for the tutorial session, she said that the tutorial is basically the last few slides (titled Applications) in the theory lecture presentation

Dr. Afnan said that this presentation is only an extra file for you to understand You are only required to study the main tutorial presentation

Females: We took 2 seminars and they are both included

- 1- Pre School Vaccination Schedules In Ksa Report.pdf
- 2- Hajj and health Report.pdf

Males: you took **Malaria** and **Ebola** as seminars but we took them as theory lectures you can find the presentations in our folder

Finally: we are not sure about **Influenza lecture**

It was taken as a theory lecture for **females** and a seminar for **males**

It might be canceled based on the last email, but we are waiting for the doctor's confirmation

This blueprint was made by students (Community medicine team) and approved by the doctors:

Black: lectures red: not included in the exam green: lectures with tutorial blue: seminars

1. Introduction
