

Topics of Medicine & Surgery
1st Semester

Cardiovascular		Nephrology & Urology		Gastrointestinal & Hepato-biliray	
M	Arrhythmias	M	Diabetic Nephropathy	M	Abdominal Pain + IBS
	RHD		Hypertension		GI bleeding
	Heart Failure, prognosis and management (2)		Electrolyte Imbalance (K,Ca,Na,Water) (3)		Liver Cirrhosis
	Valvular Disease		Acid-Base disorders		Esophageal Diseases
	Acute Coronary Syndrome		Glomerular Diseases		Acute viral hepatitis
	Infective endocarditis		Acute Kidney Injury		Chronic Diarrhea
S	PAD, Carotid stenosis, acute limb ischemia	S	Chronic Kidney Injury	S	Abnormal liver enzymes
	Atherosclerotic Disease		IV fluids + Acid-base disorders		IBD
	Vascular Investigations		Blood products and transfusion		Acute Abdomen
	Venous Disease		Emergencies in urology (traumatic & non traumatic) (2)		Surgical abdominal problems in pediatrics
	Cardiac surgical diseases		Adult urinary tract disorders		Stomach and duodenum
Respiratory		S	Common urological Tumors	S	Esophageal Diseases
M	Cough		Pediatrics urinary disorders		Abdominal masses and hernias
	Bronchial Asthma		Pediatrics inguinal + scrotal problems		Portal hypertension + surgical diseases of liver
	Pulmonary Embolism	General		Colorectal cancer	
	COPD & Bronchiactiasis	S	Sterilization + Preparation for operations	IBD	
	CAP		Shock and metabolic response	Anorectal Conditions	
	Pleural Effusion		Surgical Infections and Antibiotics	Pancreatic problems	
Investigations of lung disease	Wound healing + burn injuries		Biliary obstruction + stones		
S	Common thoracic diseases
