

Med 341 Bedside teaching

Topic: History taking & examination of the Infectious Diseases

Objectives:

By the end of the session, the student should be able to:

1. Learn taking detailed history of any febrile illness.
2. Know the relation of travel history to the current illness.
3. Learn about detailed systemic inquiries in relation to fever.
4. Learn examination skills to localized the source of fever if present.
5. Integrate and analyze the fever and physical signs.

Key Outlines:

1. Source of Fever.
2. Learning skills of examination.
3. Integrating physical sign with the history

Take home message:

We need to document the presence of fever and to practice good effort to know the source through good history & physical examination.

Recommended Books:

1. Davidson's principles and practice of medicine.
2. Kumar and Clarks clinical medicine.
