

King Saud University
College of Medicine - ORL Department
King Abdulaziz University Hospital **Lecture Programme ORL 432** Course,
Medical Students (Male) **1st Cycle 1st Set, Group A2**
Academic Year 1440 -1441 (2019-2020)

1st WEEK LECTURE			
DAY/DATE(DMY)	TIME	SUBJECT	LECTURER
TUE 3-9-19		ORIENTATION orientation of the ORL 432course and the exams, ENT history and examination(in brief)	DR. Ahmad Alroqi
	8:30 - 9:30	Ear I anatomy physiology of the ear, gross anatomy of the external, middle and inner ears, nerve supply and earache(in brief), physiology of hearing and balance (function of the Eustachian tube in brief)	DR.Salman AlHabib
	9:30 -10:30	Ear II diseases of external ear and acute otitis media, congenital anomalies of the external ear (in brief), (protruding ear, preauricular sinus microtia and atresia), wax, ear wash, otitis externa (classification and management), acute otitis media (in detail) and recurrent acute otitis media	DR.Salman AlHabib
	10:30 - 11:30	Ear III chronic otitis media and middle ear operation, classification of chronic otitis media, Otitis Media Effusion, adhesive Otitis Media, Chronic suppurative otitis media - types and management, ear operation in brief (myringotomy, tube, tympanoplasty and mastoidectomy)	PROF.Abdulrahman Hagr
	11:30- 12:30	Ear IV complication of acute & chr. OM, classification (extra cranial,cranial(temporal) & intra cranial), (in detail acute mastoidectomy& management)	PROF.Abdulrahman Hagr
	12:30 - 1:30	Audiology PTA, tympanometry and impedance (speech & ABR in brief), vestibular tests in brief	DR.Murad AlMomani
WED 4-9-19	9:00 - 10:00	Deafness conductive hearing loss (causes and management), (otosclerosis in brief), Sensorineural hearing loss (congenital and acquired) presbycusis etc...management of SHNL (in brief) {hearing aids and cochlear implant in brief}	DR.Abdulaziz AlBalaa
	10:00 - 11:00	Vertigo causes of vertigo (acute & chr. labyrinthitis, Meniere's disease, vestibular neuritis, positional vertigo,etc), investigation of a dizzy patient (in short)	DR.Abdulaziz AlBalaa
	11:00-12:00	Head & Neck I A) Neck masses- intro, anatomy, diagnosis, differential diagnosis, examples B)Thyroid-anatomy, thyroid nodule eval, thyroid cancer, surgery & complications	PROF. Khalid AlQahtani
	12:00 - 1:00	Head & Neck II A)Salivary glands, anatomy, physio. (in brief),infection, autoimmune&tumours,B)Tumour of oral cavity, Introduction, Pre-malignant lesion, Leukoplakia etc.,malignant lesion , SCCA	PROF.Khalid AlQahtani
	1:00 - 2:00	Head & Neck III A)Tumour of pharynx, Nasopharyngeal ca, Oro & hypopharyngeal ca, B)Tumour of larynx, Intro., laryngeal papillomatosis, ca larynx	PROF.Khalid AlQahtani

Dr. Ahmad AlRoqi
Director, Undergraduate

Dr. Saad AlSaleh
Chairman, ORL Department

2nd Week Lecture			
DAY/DATE(DMY)	TIME	SUBJECT	LECTURER
SUN 8-9-19	8:00 - 9:00	Nose I anatomy & physiology of nose & paranasal sinuses, anatomy -external nose & nasal cavity, paranasal sinuses, (blood supply, {nerve supply} in brief), function- nose & paranasal sinus, congenital anomalies (in brief) {choanal atresia}	DR.Saad AlSaleh
	9:00 - 10:00	Nose II acute & chronic rhinitis, allergic & non-allergic rhinitis, vestibular & furunculosis, nasal polyps (allergic & antrochoanal)etc, radiology illustration(e.g.CT scan)	DR.Saad AlSaleh
	10:00 - 11:00	Nose III acute & chronic sinusitis(causes,clinical & management), fungal sinusitis (in brief),complication -sinusitis (classification, management & with special attention to orbital complications, investigation & general treatment), radiology illustration	PROF. Surayie Aldousary
	11:00 - 12:00	Nose IV diseases-nasal septum (DNS etc.),epistaxis (causes, clinical & mngt), turbinate hypertrophy, nasal operations(FESS, septoplasty, turbinate surgery) inshort.	PROF. Surayie Aldousary
TUE 10-9-19	9:00 - 10:00	Facial Nerve anatomy (course and branches), causes of facial palsy (including Bell's palsy , middle ear complication, traumatic and Ramsy Hunt's syndrome)	DR.Badi Aldosari
	10:00 - 11:00	Airway Obstruction I causes of airway obstruction (congenital and acquired), signs and symptoms	DR. Abdulmajeed Zakzouk
	11:00 - 12:00	Airway Obstruction II investigation of airway obstruction, radiology illustration, medical and surgical treatment, operations (indication, procedure and complication) tracheostomy, cricothyroidectomy, intubation, choanal atresia repair etc..	DR. Abdulmajeed Zakzouk
	12:00 - 1:00	Trauma & Foreign Body I trauma to auricle (laceration&hematoma), tympanic membrane-traumatic perforation, FB ear, fracture temporal bone, nose trauma , fracture nasal bone, septal hematoma, septal perforation, FB nose, blow-out fracture, all with (radiological illustrations)	PROF.Sameer Bafaqeeh
	1:00 - 2:00	Trauma & Foreign Body II F.B. pharynx and esophagus, trauma to larynx (in brief), F.B. tracheo-bronchial tree, Radiological illustration	PROF.Sameer Bafaqeeh
WED 11-9-19	8:00 - 9:00	Pharynx I anatomy of the pharynx and deep neck spaces (retro and parapharyngeal), physiology (function of pharynx in brief), acute and chronic pharyngitis (non-specific and specific) e.g scarlet fever, infectious monoliasis, fungal, Vincent angina, diphtheria, Zenker diverticulation (in brief)	DR.Mohammad Alessa
	9:00 - 10:00	Pharynx II adenoid & tonsil diseases, complication-pharyngeal diseases (Quinsy, para&retropharyngeal, Ludwig's angina)+Radio. illustrations),adenotonsillectomy (indications,compl&mngt), differential diagnosis of membranous tonsil.(in brief)	DR.Mohammad Alessa
	10:00 - 11:00	Larynx I ana.& physio. - larynx, gross anatomy, blood & nerve supply, congenital diseases - larynx (in brief), (laryngomalacia, web, subglottic stenosis & hemangioma), benign swelling-larynx (Singer's nodule, polyps, granuloma, J.L. papillomatosis)	DR.Mohammad Alessa
	11:00 - 12:00	Larynx II acute & chr. laryngitis, specific & non-specific laryngitis (acute epiglottitis, croup), laryngeal paralysis (unilateral and bilateral)	DR.Mohammad Alessa
	12:00 - 1:00	Comm. & Swallowing I Physiology of swallowing, swallowing disorders, GERD	PROF.Tamer Musalam
	1:00 - 2:00	Comm. & Swallowing II Voice disorder, language disorder, speech disorder	PROF.Tamer Musalam

Dr. Ahmad AlRoqi
Director, Undergraduate

Dr. Saad AlSaleh
Chairman, ORL Department
